

Tiffany Mayfield is a business owner, Best Selling Author and an agent for change. She is on a mission to transform lives and impact the world using her God given talents, abilities and continual commitment to healing, growth and progression. Tiffany believes that each of us can tap into our own power, share our stories, trials and triumphs to serve humanity and decide to evolve. As we change, so do the people and the world around us.

Although a woman of many passions, Tiffany's greatest passion is to guide women to make the transition from feeling stagnated and empty to exalted and empowered in the rediscovery of who and what she is to become mentally, emotionally and financially.

“Through proven methods, tools, resources and live virtual events, the empowered, changed woman embarks upon a new standard of clarity and perspective and recognizes the power in change and her strength. She will experience a transformation of her position in all areas of her life.” Tiffany Mayfield
